Multimedia Navigation System

Quick Start Guide

GM Series2 Navigation

Application: For select Enclave, Acadia and Traverse models.

ROSEN

NOTICE OF INTENDED USE

Some features of Rosen Electronics, LP are not intended for viewing by the driver when the vehicle is in motion, such as movie playback. When using navigation, minimize the amount of time spent viewing the screen and use voice prompts as much as possible. Avoid prolonged use of the touch screen controls. Such use might distract the driver or interfere with the driver's safe operation of the vehicle, and thus result in serious injury or death. Such use might also violate state or local laws.

Rosen Electronics, LP disclaims any liability for any bodily injury or property damage that might result from any improper or unintended use.

ABOUT THE REGISTERED TRADEMARKS

This item incorporates copy protection technology that is protected by U.S. patents and other intellectual property rights of Rovi Corporation. Reverse engineering and disassembly are prohibited.

NAVIGATION MAPS

Car navigation maps are frequently updated. While the database was judged to be as accurate as possible at the time of its release, a map database can never be 100% accurate. Road information that is maintained in the map databases, such as turn restrictions or road names may change over time.

Errors or missing information in the map data are not covered by the Product Warranty. New and/or updates for the map data are the responsibility of the End-user.

NOTE: Features listed in this manual are subject to change without notice.

For complete Owner's and Navigation Manuals, please visit Rosen Electronics LP online at www.RosenElectronics.com

Entering Navigation

To Enter/Exit Navigation Mode, press and hold SRCE button located on steering wheel for two seconds.

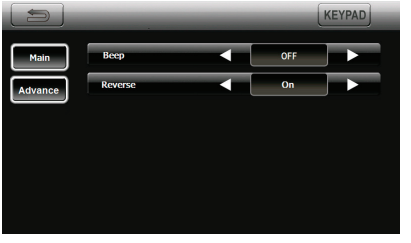
Main Settings

To enter Installer settings, press and hold SRCE button for more than five seconds.

Beep: Touch screen beep On/Off

Reverse: Camera On/Off setting.
If no camera is equipped, set to off.

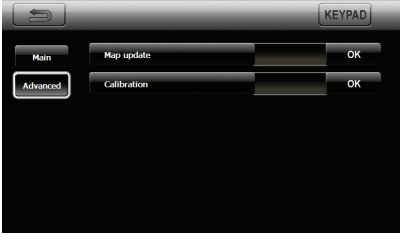
Note: Will not override OEM settings



Advance

Map Update: Update Navigation content.
Requires “SYNCTOOL” from **naviextras.com**

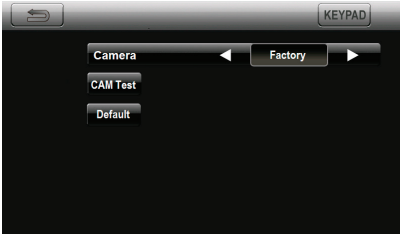
Calibration: Calibrate Navigation touch screen.



Using Aftermarket Camera

1. From the Main Settings page, press Keypad and enter “1120” Ok.

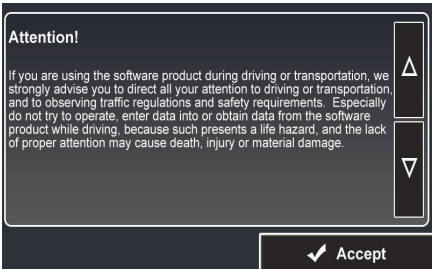
2. Change Camera Settings from “Factory” to “Rosen”. Exit Settings Page by pressing Back Arrow button twice.



Before operating your Rosen Navigation system, please carefully read and follow the instructions provided in the "Safety Information and Precautions" located on the inside back cover of this Quick Start Guide.

Start Up

When the navigation software starts, you will see the reminder warning to use your navigation software safely and lawfully.



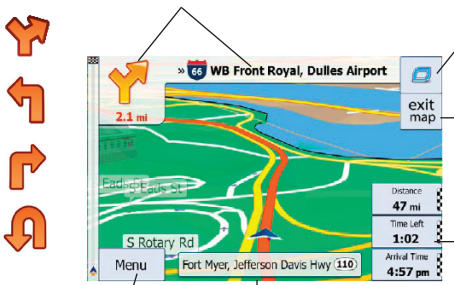
Attention!
If you are using the software product during driving or transportation, we strongly advise you to direct all your attention to driving or transportation, and to observing traffic regulations and safety requirements. Especially do not try to operate, enter data into or obtain data from the software product while driving, because such presents a life hazard, and the lack of proper attention may cause death, injury or material damage.
Accept

Accept You must accept these conditions to continue

Please refer to the User's Manual for additional information and warning on proper use of the Rosen Navigation product.

Understanding the Map

The top part of the screen shows you what the next street is and which direction to turn on your route



Select the Quick Menu to access the most used functions

Press to exit Nav

These displays show you the distance, time left and the estimated arrival time of your trip

Distance 16.9 km
Time Left 0:16
Arrival Time 17:22

Shows you the street you are currently on

Menu

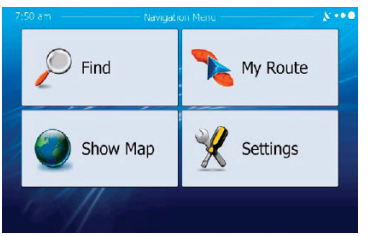
Access the Navigation Menu

Find — Find an address or Point of Interest and access the Favorites and History menu

My Route — Displays the route details and allows you to edit, change or cancel existing route

Show Map — Displays current position, surrounding map area and route.

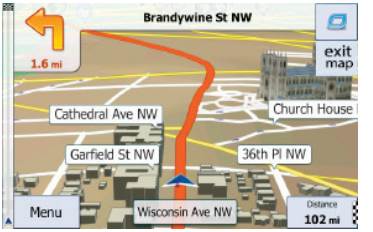
Settings — Customize the navigation software



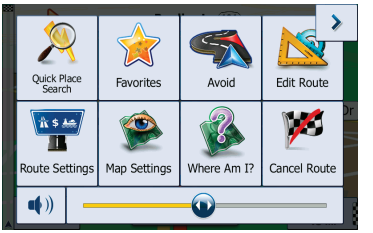
Quick Menu

Located in the top right corner of the map screen is the Quick Menu. In this screen, there is a selection of functions that are frequently needed during navigation.

Note: Use side bar to adjust Navigation volume.



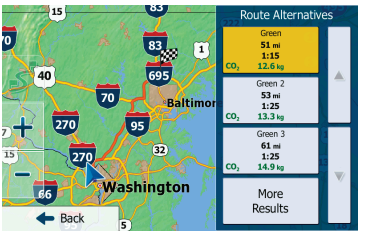
You can use this option to search for places of interest along the way of your route, such as: Gas Stations, Restaurants, Parking, etc.



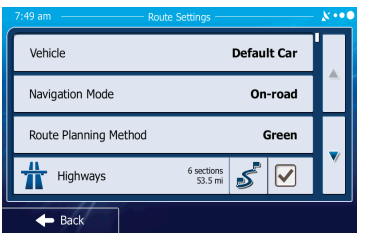
Modifying Existing Routes

You can modify an existing route by accessing either the Quick Menu or Main Navigation menu

You can use this option to select an alternative route to your destination.



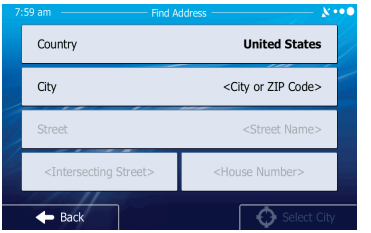
This option is a good way to change road types and modes. You can avoid highways, allow toll roads, etc.



Enter or Find Address

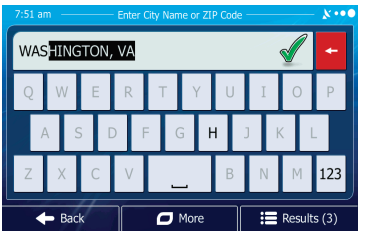
If you are on the Map screen, press MENU. In the Navigation Menu, select Find Address.
Note: By default, the software proposes the country and state where you are currently located.

1. Touch “City Name” and the keyboard screen will appear.

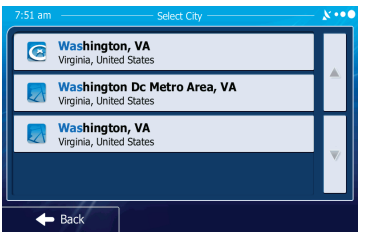


2. Your current city will automatically default. To search for a different city, start typing each letter of the City name

Tap to confirm city

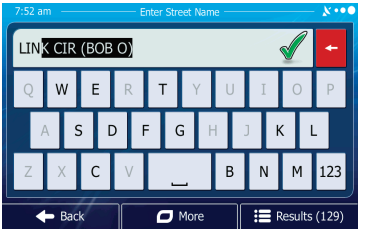


3. A “Select City” screen will appear. This will show a list of cities that match your selection. Touch the city you desire.



4. Select “Street” and the keyboard screen will appear.

5. Start typing each letter of the street name.

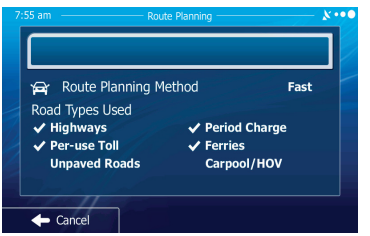


6. A Street Name list will appear. Select the one you are looking for.

7. Repeat these steps for House number, or if you do not know it, you can select the SELECT STREET option.

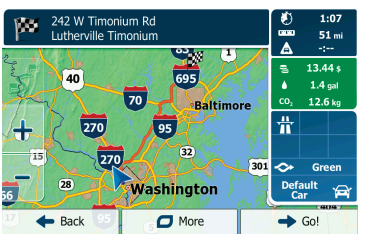
8. A map will appear.

Next Click Next and a short summary of the route will flash on the screen for a few seconds.



9. After the summary, the map appears showing the entire route.

Go! Tap to start your journey.



Setting Favorites

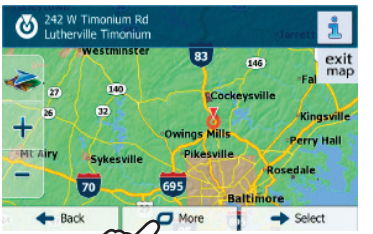
You can set Favorite destinations (like Home, etc) so you do not have to enter it manually each time.

-Once you have entered all information and press DONE, in the next screen, you will select MORE

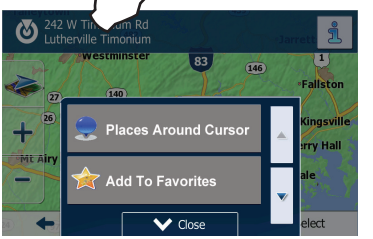
-Select ADD TO FAVORITES

-It will take you to keyboard where you can rename your favorite. (Example: HOME)

-Select DONE and you Favorite is now saved.



You can also set a Favorite from the History section. Please see below.



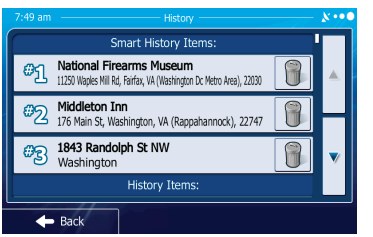
Route History

You can search through the History menu to access past routes or to set a past route as a Favorite.

-From the QUICK MENU or SETTINGS in the main menu, select HISTORY

- To set as a Route, select the address, then tap SELECT.

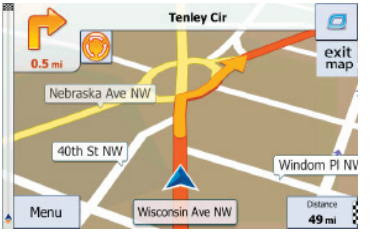
-To set as a Favorite, select the address, then tap MORE. Select ADD TO FAVORITES.



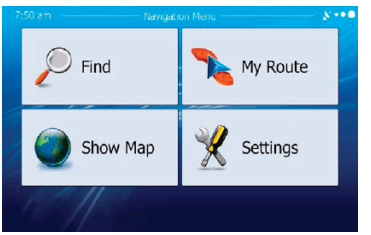
Adjusting the Time Zone

To adjust the time displayed on the unit, please use the steps below.

1. Press MENU in the bottom left corner of the screen



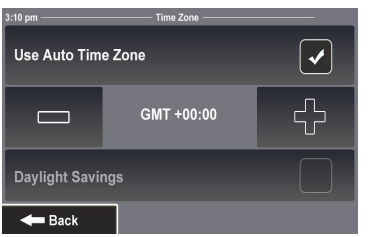
2. Select SETTINGS
----->REGIONAL
----->Time Zone



3. Now you are in the clock setting screen.
-Use can set the time zone to change automatically when entering a new time zone.

-Use the minus and plus icons to adjust the time in increments of 15 min

-Set Daylight Savings OFF/ON

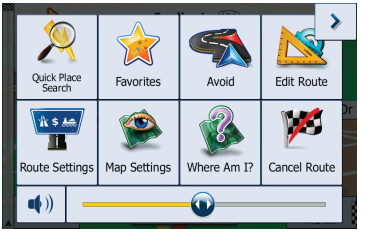


Map Settings

You can modify and customize the way your maps are displayed by accessing the Map Settings

From the map screen select the Quick Menu button.

Select Map Settings from the list



Map Setting Options

View Mode: Set as 3D or 2D

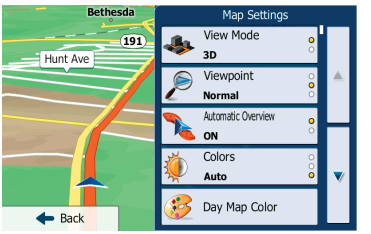
Viewpoint: Low, Med or High

Automatic Overview: ON/OFF

Colors: Day, Night or Auto

Day Map Color: Select from several themes

Night Map Color: Select from several themes



3D Vehicle Gallery: Select from several vehicles/people that will be displayed as your marker

Landmarks: ON/OFF

Buildings: ON/OFF

Track Logs: ON/OFF

Place Markers: Select what markers (such as gas, food, etc) that you would like the map to automatically display

Safety Information and Precautions

WARNING! Please read and follow the following safety precautions. Failure to follow the instructions below may increase your risk of collision and personal injury.

The Rosen Navigation software is not a substitute for your personal judgment. The route suggestions should never supersede

any local traffic regulation or your personal judgment and /or knowledge of safe driving practices. Prior to completing any maneuvers suggested by your Rosen Navigation software (for example, a U-turn or a left turn), verify that you can legally and safely complete the maneuver. Do not follow route suggestions if they direct you to perform an unsafe or illegal maneuver, would place you in an unsafe situation, or would route you into an area that you consider unsafe.

Do not use the Rosen Navigation software to locate emergency services (such as police, fire stations, hospitals, and clinics). The database may not include all emergency service providers. Use your own best judgment and ask for directions in these situations.

If the vehicle is in motion, only a passenger should program the Rosen Navigation software. The driver should not program the system unless the vehicle is parked in a safe location.

The Rosen Navigation software's map database provides information on suggested routes without regard to factors that may affect your driving experience or the time required to arrive at your destination. For example, the system does not reflect road detours, closures or construction, some road characteristics (e.g., road surface, slope or grade, weight or height restrictions, etc.), temporary traffic congestion, weather conditions, and similar factors.

Vehicle Position
The Rosen Navigation software's computer considers vehicle speed and heading changes, together with longitude and latitude information, to accurately determine vehicle heading and position on a digital map.

Map and Information Database
The map database used by your Rosen Navigation software was created using high-resolution aerial and land based data collection.

Car navigation maps are frequently updated. While the database was judged to be as accurate as possible at the time of its release, a map database can never be 100% accurate. Road information that is maintained in the map databases, such as turn restrictions or road names may change over time.

Errors or missing information in the map data are not covered by the Product Warranty. New and/or updates for the map data are the responsibility of the End-user.

End-User License Agreement
Please refer to the Rosen Navigation User's Manual to review and accept the terms and conditions in the End-User License before operating this product.
